

MADANI INTERNATIONAL FILM FESTIVAL A FESTIVAL FOR EVERYONE

The Madani International Film Festival aims to describe the lives of Muslims in various parts of the world, whether as the majority or the minority. The film is a cultural expression that can become a medium for mutual understanding beyond political, economic, and even religious differences. This festival is presented in an inclusive atmosphere. Programming that focuses on human values ensures that this festival can reach everyone. The festival will celebrate Islam as a source of life guidance and cultural expression.

UFUK – THE THEME OF THE MADANI INTERNATIONAL FILM FESTIVAL 2022

The most common image as we read the word ufuk (in English, horizon) is the boundary between the sky and the earth that we see from a beach. One can see waves, a vast sea, the blue sky, and a line that seems infinite, only bounded by the limits of our vision, far in a distance. In many literary works, the horizon is often synonymous with an open mind, imagination, and broad hope. In the thematic and programmatic contexts, we interpret ufuk, among others, through a focus on ideas and imagination as well as the horizon of thinking in Islamic world cinema, which offers a horizon of a new, more just, and compassionate civilization, along with their socio-cultural contexts. This year we present 70 films from 22 countries, 16 discussion from 32 speakers.

CELEBRATING
MUSLIM
DIVERSITY
